CAREER OBJECTIVE

I'm a final year Computer Science and Engineering student passionate about building practical and user-friendly web applications. I'm looking for an opportunity where I can apply my skills in Python, Django, and web development, learn from real-world challenges, and grow into a better developer while contributing to the team's success.

EDUCATION

B.E. CSE	Government college of Engineering, Erode.	**7.88 CGPA**	2022 - 2026
HSC	Sree Saravana Nikethan Matric Hr.Sec.School, Erode.	**87%**	2020
SSLC	Sree Saravana Nikethan Matric Hr.Sec.School, Erode.	**89%**	2018

PROJECTS

Eat Now - Food Ordering System: Designed a digital platform enabling customers to order food online, reducing manual order handling, improving service speed, and providing a convenient, user-friendly dining experience.

Happycards – Event Invitation Web Page: Designed a visually appealing, static scrollable web page using HTML, CSS, and JavaScript to showcase various event invitation styles, with a focus on responsive layout and front-end design.

Employee Attendance Tracker (Shift-Based): Developed a Python-based system to track employee check-ins and check-outs, handle day/night shifts, calculate working hours, and automatically send alerts for missed logs, focusing on backend logic.

CERTIFICATIONS

Python Programming	NPTEL
Web development Intern	InternPe
Attendance tracker- Python internship	Sri Kalaivani Industries
Full Stack Development (Django)	Gateway software solutions

SKILLS
